

Sabre UK UK Tax Strategy

Introduction

This document is the UK Tax Strategy for the companies listed in Table 1 below (collectively referred to as "Sabre UK") which are UK subsidiaries and UK establishments of the Sabre Corporation group. Sabre Corporation is listed on the NASDAQ in the US under the symbol SABR. Sabre Corporation is a leading software and technology provider to the global travel industry. Sabre's retailing, distribution and fulfilment solutions serve a wide range of travel companies including airlines, hoteliers and travel agencies. Sabre operates a leading global travel marketplace, connecting travel buyers and suppliers.

Sabre UK report and account for UK taxation most notably corporation tax, VAT and employment taxes (PAYE and National Insurance).

Tax risks and managing tax risks

Sabre UK aims to pay the right amount of tax at the right time

certainty indirect and indirect tax matters

ore

Tax sensitive judgments will be made based on a reasonable interpretation of relevant information, in full knowledge of relevant tax law and, where appropriate, take account of external tax advice.

Tax planning

Sabre Corporation commits to high standards of personal conduct and business integrity around the world, governing itself with equally high standards, applying the Sabre Code of Business Ethics and corporate responsibility policies that enhance our corporate value. (Related documents can be found at: [Corporate Governance | Sabre Corporation Site](#)).

We will not put in place any arrangements that are artificial, lacking in economic substance or without business purpose. We conduct transactions between group companies on an arm length basis in accordance with OECD principles. In the context of an increasingly complex international tax environment, our tax planning focuses on eliminating(s)6 Tc 0 Tw in DbTd ()Tj 0.005 TT

This strategy applies to tax matters conducted in financial year 2023 and shall be updated in financial year 2024 not later than 31 July 2024.
